

Ford Mustang: 20 inspirational cars, Volume 2

Volume 2 in this series again features another twenty Ford Mustangs and the stories of their restoration, renovation or modification. This book is invaluable for anyone thinking of owning, restoring, renovating, modifying or just simply lusting after a Ford Mustang, whether its a Shelby GT500KR or a more modest example. You'll also meet the owners - everyday people like you - who have dreamed of owning a Mustang and now do. Each of the twenty cars has its own story and we reveal how the owners came to own the car, what they've done to make it a shining example of a Pony car, and where they see the future. Some of the cars are multiple show-winners at top concours level; some are much-loved daily drivers; others are used to put in fast lap times in historic racing classes. This book presents twenty Mustangs from 1965 to 2003 - a mix of authentic showroom classics, track-ready race cars and modified street machines. Each story comes with professionally shot colour photographs and vehicle specifications. Of course, these stories are full of brilliant ideas you can take for your own Mustang, or you can just read them and live the Mustang ownership dream vicariously.
