

A Mayan Astronomer in Hells Kitchen: Poems

Martin Espadaforges a new poetic language. Dennis Loy Johnson, Pittsburgh Tribune
In his sixth collection, American Book Award winner Martin Espada has created a poetic mural. There are conquerors, slaves, and rebels from Caribbean history; the Mayan astronomer calmly smoking a cigarette in the middle of a New York tenement fire; a nun staging a White House vigil to protest her torture; a man on death row mourning the loss of his books; and even Carmen Miranda.
