

A Scientist Researches Mary, Ark Of The Covenant

A monumental tribute to Mary, the Mother of Christ. Professor Bartholomew has recorded the scientist/physician pilgrimage in the life and suffering of Mary, and records Her messages of concern for all. This book contains a wealth of valuable information on the maternal care bestowed on us by the Virgin Most Powerful. It is solidly based in theology, is very readable, and testifies by a vivid narrative to a staunch faith in the miraculous, which science cannot explain. 165 color photographs.
