

Finding The Lost Ten Tribes Of Israel: A 1st Century Event!

The Old Testament Scriptures of the Bible are often misunderstood when it comes to just what became of the House of Israel, i.e. the Ten Northern Tribes of Israel. Some believers today even speak of them as The Ten Lost Tribes of Israel! I would imagine that all of us have at one time or another experienced the shock and surprise when we discovered something that had been in plain sight all along and yet had remained hidden from our view. In his second book, author Jim Gunter reveals just such an experience after many, many years of wondering just what became of these particular Israelites. And it is this search that is the primary focus of this study. It seems that very few realize that the answer to this great mystery is clearly found, not in what secular history the clergy may have to say about them, but what our Great Creator clearly reveals about them in His Inspired record, i.e. the Old and New Covenant Scriptures! Many believers today believe that these particular Israelites are to be restored sometime yet in our future. However, be prepared to see that their restoration was a 1st century event, and was an integral element in the whole story of Gods wonderful scheme of redemption. After a serious consideration of what The Scriptures teach, we believe that any person interested in putting the pieces of the Bible together will find this book full of eye opening information. Discover just how our God remained faithful to His promise and allow His blessings to be available to all men!
