

# A Wesleyan Theology of Holy Living for the 21st Century: Volume 1

The Church as a whole has always taught the necessity of living a holy life. However, within different movements and at different periods of time sanctification has usually been reduced to a particular emphasis. Dr. Reasoner identifies seventeen different emphases across church history. The contribution of John Wesley was not that he invented the doctrine, but that he was able to synthesize positive contributions from each tradition. Thus, Reasoner presents a contemporary statement of Wesleyan sanctification, not in a sectarian sense, but in the sense of incorporating the best of holy men and women from all traditions.
