

Ford Farm Tractors (Motorbooks Classics)

In this beautifully illustrated history of Fords tractors, author and photographer Randy Leffingwell celebrates the Ford family of tractors from their development to modern day. Research and photography, courtesy of the Henry Ford Museum Archives, brings Ford tractors and their creators to life. With archival black-and-white photography, and stunning full-color restorations, Leffingwell tells the story of the legendary Fordson, the Model T conversion tractors, European models, and the making of the beloved Ford-Ferguson Model 9N. Ford Farm Tractors is a book that belongs in the collection of any fan of these beautiful machines.
