

A Gallop Among American Scenery: Or Sketches of American Scenes and Military Adventure (Classic Reprint)

The various sketches of which it is composed were written for recreation, amid the cares of business; reviving, as they did, recollections of attractive scenery and passages of military and naval history, the latter made specially interesting to the writer by oral narratives of persons whose lives engaged in them. When the book was written, we had little of military history except that of the Revolution, and the events of the War of 1812 were cherished with deep regard by the public; but since then, the smoke and carnage of the Mexican War, and the gigantic horrors of the conflict with the South, have thrown them almost entirely in the shade. It is hardly necessary to say that most of the dramatic personae which figure in these sketches are ideals, improvised for the purpose of telling their various stories, nor that in a work so tinged by the imagination a degree of poetic license is taken to give continuity to the narration. To occupy some idle hours, the writer has prepared this edition; adding to it a number of chapters not contained in the first.
