

## Ancient Angels A - Z (Discover the Truth series, Book 3)

There is a huge amount of misinformation about angels on the net and in books. These provide secondary sources to modern books rather than to the ancient texts themselves. As a result, ancient writers have been misquoted over and over again and made to say things that they never said. If you want to discover the truth about what the ancients actually said about angels, this book is for you! About the Author. Dr. A. Nyland spent her time on Faculty at the University of New England, Australia, teaching ancient grammar and ancient history. She is the best selling translator of such books as The Complete Books of Enoch and author of What Were the Watchers? as well as Nephilim and Giants. The information based on her books is not based on her own opinions, but is presented with a view to getting actual facts out there. This is harder and harder in this day and age with misinformation spreading like wildfire on the net, driven by all the books by authors who know no ancient languages, and get their information from English translations rather than the original texts. It is futile to research ancient texts in English translation.
