

## Angels, Angels, Angels

The question must be asked, Are Angels real, and if so, what is the basis for belief in their reality? The primary written source of information is found in the Old and New Testaments of the Bible. But added to that is the innumerable personal encounters with supernatural beings. Can we know which experiences are authentic and which ones have no basis in fact and must be discounted as untrue? Fortunately, this distinction is not left to human judgement, for God has provided the measuring rod in the truths of the Bible. Human experience must be verified or discounted by the teaching of the Bible. *Angels, Angels, Angels* presents a biblical view of angels with a sensitivity to their involvement in your life.
