

Four Blood Moons: Something Is About to Change

Over the last 500 years, blood-red moons have fallen on the first day of Passover three separate times. These occurrences were connected to some of the most significant days in Jewish history: 1492 (the final year of the Spanish Inquisition when Jews were expelled from Spain), 1948 (statehood for Israel and the War of Independence) and 1967 (the Six-Day War). Every heavenly body is controlled by the unseen hand of God, which signals coming events to humanity. There are no solar or lunar accidents. The next series of four blood moons occurs at Passover and Sukkot in 2014 and 2015. In this riveting book, Hagee explores what these blood moons mean and why Christians must understand these signs and what they bode both for Israel and the world. Joel 2 and Acts 2 both state: And I will show wonders in the heavens and in the earth, blood and fire and pillars of smoke. The sun shall be turned into darkness [eclipse] and the moon into blood [eclipse] before the great and terrible day of the Lord comes.
