The Daily Happiness Multiplier teaches you the easy daily systems you need to multiply your daily successes and achieve a higher level of personal and professional growth. Bimal Shah has overcome some of life's toughest struggles and has learned to thrive in adversity. He started with virtually no money, worked five jobs to pay his own out-of-state tuition, and supported a marriage and two wonderful daughters along the way, but eventually became a multimillionaire. He shares with you the systems he used to achieve success. Bimal is on a mission to build high achievers throughout the world and to provide security from enemies of self. He provides thinking systems to help you deal with your doubting and destructive side. The Daily Happiness Multiplier will teach you how to defeat the enemies of self that everyone harbors. Bimal builds and maintains unique and customized systems of coaching-planning-achieving to provide security from enemies of prosperity. He built the systems of coaching-planning-achieving as there is a big gap today between the application of coaching and the final result of achieving the results you want. His systems bridge that gap. The Daily Happiness Multiplier will help you use happiness as a foundation to achieve what you want for your personal and professional growth.
