

Bristol Cars Model by Model

The Bristol badge has sat proudly on a succession of fast, reliable and expensive 6-, 8- and 10- cylinder cars since 1946. Though it was initially revered by the motoring press, an air of mystery descended over the marque throughout the 1980s and 1990s. Now under new ownership, Bristol is to be reborn with new state-of-the-art models proposed which aim to capture the excellence and exclusivity of the early models. As a compliment to the revival, this book celebrates the rich diversity of each model from Bristol Cars production catalogue. Bristol Cars Model by Model provides a history of the development and production of each of the cars, including coachbuilt and racing models, with full specifications. It is richly illustrated with over 400 photographs.
