

Revision Notes for the Final FRCR

Revision Notes for the Final FRCR Part A summarises the core knowledge required for each of the six systems based modules included in the exam, all in highly succinct bullet point format. The book takes the stress out of the revision process by providing candidates with a readymade set of highly synthesised and relevant notes that focus exclusively on the topics encountered in the exam. Each chapter has been authored by recent exam candidates and in turn edited by sub-specialty radiologists to provide highly relevant, high quality, high yield revision notes.
