

Wraith (Nick Baron Series Book 3)

After the towers fall on 9/11, Lieutenant Nick Baron and the rest of the 81st Fighter Squadron are desperate for action. But CENTCOM puts them on the sidelines, leaving the young Warthog pilots restless and reckless. Then the unthinkable happens. During a high-risk training flight, a rookie wingman slams into the ground. In the darkness that follows, Nick wonders if he will ever learn to trust a wingman again or even learn to trust himself. He will soon find out. Despite the black mark on his record, Nick's application to the elite Stealth Wing is approved. A recruiter for a new covert team has taken note of Nick's unique combination of skills. Suddenly Nick is swept into Operation Cerberus, a top secret mission that will take him from a harrowing flight over a black testing facility to a fight for his life on the Iraqi Dunes. Hannibal brings together a terrific mix of real air technology with intrigue and nonstop action. A true suspenseful story that will keep you turning the pages until the exciting finale; it really is a great tale. Clive Cussler Get out of the way, Nelson DeMille. Brad Thor you've got competition!
