

Stand Your Ground: Black Bodies and the Justice of God

If Trayvon was of age and armed, could he have stood his ground on that sidewalk? --President Barack Obama

The 2012 killing of Trayvon Martin, an African-American teenager in Florida, and the subsequent acquittal of his killer, brought public attention to controversial Stand Your Ground laws. The verdict, as much as the killing, sent shock waves through the African-American community, recalling a history of similar deaths, and the long struggle for justice. On the Sunday morning following the verdict, black preachers around the country addressed the question, Where is the justice of God? What are we to hope for? This book is an attempt to take seriously social and theological questions raised by this and similar stories, and to answer black church peoples questions of justice and faith in response to the call of God. But Kelly Brown Douglas also brings another significant interpretative lens to this text: that of a mother. There has been no story in the news that has troubled me more than that of Trayvon Martins slaying. President Obama said that if he had a son his son would look like Trayvon. I do have a son and he does look like Trayvon. Her book will also affirm the truth of a black mothers faith in these times of stand your ground.
