

Carolina Crimes: Case Files of a Forensic Photographer (True Crime)

In this intense insiders study of murder in South Carolina, Lt. Rita Y. Shuler leads us through the dark twists and turns of twelve homicide cases that gripped the state during her career as a forensic photographer with South Carolina Law Enforcement Division (SLED). Shulers fascination with the criminal mind began with her exposure as a young girl to a 1953 double-homicide that shocked South Carolina. When she came face to face with the original case records twenty-four years later on her first day of work as a forensic photographer she was immediately hooked on a profession that took her deep into the investigation of hundreds of cases. Shulers firsthand experience with forensic evidence of crime scenes and the court system gives her a unique perspective on murder and its horrifying effects on public and private lives. By combining analysis of court transcripts and official statements and confessions from murderers with her own personal interactions with the key players in some of these tragic dramas, Shuler allows the reader to see into the criminal minds of notorious killers like Pee Wee Gaskins, Rudolph Tyner, Ronald Rusty? Woomer and Larry Gene Bell. Shulers study is a must for everyone fascinated by the criminal mind and by the most famous murder cases in South Carolinas recent past.
