

## Under Color of Law

Under Color of Law is the true, fact-driven account of an innocent mans nightmare journey through the American criminal justice system. Begining in January of 2004, Dr. Jonathan Nyce, a respected medical research scientist with a world-wide reputation in new drug discovery, a former medical school professor, and the father of three young children, was accused, tried and wrongfully convicted of the murder of his wife, Michelle. This happened despite clear evidence that another man who had been stalking Michelle, a man against whom the Nyses had obtained a restraining order, had murdered her. Previously concealed police reports show that (1) the stalker was found to be in violation of the restraining order and to have Michelles blood on him in the time frame of her death; (2) police found black hair clenched in Michelles left hand (the stalkers hair is black; Dr. Nyses hair is blond); and (3) size 9 1/2 footprints were found leading away from Michelles body (the stalker wears size 9 1/2; Dr. Nyce, size 12/13). While keeping these facts concealed from the jury, police and prosecutors invented a case against Dr. Nyce and obtained his conviction. Why would they do this? For several months preceding Michelles murder, these same police officers had ignored Dr. and Mrs. Nyses pleas for help when Michelles stalker repeatedly violated their restraining order, permitting the danger from this man to spiral out of control. There is at least indirect evidence that these officers needed the stalker, a professed illegal immigrant, to remain on the street as part of a drug investigation. Dr. Nyce was tried in the courtroom of Wilbur Mathesius, a judge who blatantly refused to follow established constitutional law in this case. Mathesius was later suspended from the bench by the Supreme Court of New Jersey, and subsequently denied reappointment-- all too late for Dr. Nyce, who spent five years

in prison before being released. Under Color of Law details, in a fully documented and essentially unassailable fashion, how innocent people can be convicted in defiance of the evidence and with complete disregard for the law, when that is considered to be in the best interests of the authorities. It thus has importance far beyond this specific case, and should be on every American citizens must read list.
