

Classical Comedy - An Armoury of Laughter, Democracys Bastion of Defence: Introducing a Law of Opposites

Classical Comedy- An Armoury of Laughter, Democracys Bastion of Defence repudiates Aristotles claim in Poetics, that tragedy was the jewel of fifth century democracy, arguing that the claim belongs to comedy, as a brilliantly entertaining defense of social values and standards. Tom Rothfield examines every aspect of classicism, analyzing comedys origins, and structure, to demonstrate the reasons for classical comedys universal and continued significance. He breaks down theatrical mechanisms, including the playhouse, masks, costumes, a comedians comic skills, the playwrights inventive genius in plot development, character development, and effective jokes. Through his analysis, Rothfield demonstrates the classical framework, and classical comic criteria that provides an unrivalled model for contemporary theater.
