

Normalization and Characterization of Multibeam Backscatter: Koitlah Point to Point of the Arches, Olympic Coast National Marine Sanctuary - Survey ... Sanctuaries Conservation Series MSD-06-03)

Through a partnership between the National Oceanic and Atmospheric Administrations (NOAA) Office of Coast Survey (OCS), NOAAs National Marine Sanctuary Program (NMSP), and NOAAs Office of Marine and Aviation Operations (OMAO), high resolution bathymetry (HRB) was collected on various opportunistic occasions during the months of October from 2001-2004 in the Olympic Coast National Marine Sanctuary (OCNMS).
