

Create A Better YOU!: 12 Essential Elements To Creating A Better Life

What do you do when you are fed up with the cards you've been dealt in life? You either fold and surrender or you accept that maybe it's not the cards you've been dealt that's the problem, but rather how you have played those cards. You either go on blaming every other person, place or thing for your dissatisfaction or you look in the mirror and accept the fact that you are staring at your biggest problem. The moment you accept that the key to you living a better life hinges on you taking responsibility for creating a better YOU is the moment you will begin to experience the fullness God has purposed for your life. Create A Better YOU! gives you 12 Essential Elements in your life to begin improving upon in order to unleash your power to develop yourself into a person worthy of and ready for your best life. From creating a better CONNECTION to creating a better STORY, Ryan Greene opens up and shares, through his customary transparent story telling style, his keys to how you can create a better life when you first create a better YOU in this easy to read book.
