

Fear In The Cotswolds: 7 (The Cotswold Mysteries)

Mystery and intrigue in the beautiful Cotswold countryside. Following a string of disastrous house-sitting assignments, and with troubles in her recent personal life, Thea Osborne is understandably apprehensive about her latest commission: a wintery month in an isolated farmhouse with only an assortment of animals, including her loyal spaniel Hepzie, for company. With the summer lushness of the Cotswolds turned icy grey, Thea spends her first few days exploring the tiny but beautiful hamlet of Hampnett, and the nearby town of Northleach. While discovering more of the surrounding area she meets some of the mysterious local characters: the unappreciated au pair from Bulgaria and the elusive Kate from a neighbouring farm. But then the weather turns extreme, and so do events. When she stumbles across a man lying dead in a snow-filled field, Thea is once again at the heart of a mystery in the gorgeous Cotswold countryside... Exciting and thought-provoking, with a plot which will have readers' minds working overtime, the latest in the Cotswolds series shows author and heroine on top form once again.
