

Dorothy Day for Armchair Theologians

If theology is about more than books and libraries, lecture halls and dusty debates; if theology is instead about lived experience, especially the experiences of those living at the margins of society's care and concern; if, in short, theology is about the real needs of real people, then Dorothy Day was one of the greatest theologians of the twentieth century. In spite of having no formal training in theology, Days work and writing on behalf of the poor and oppressed bears eloquent testimony to the creativity and courage of her theological vision. Her journalism for the *Catholic Worker* and her advocacy for the poor, women, ethnic minorities, and others come together to form a consistent theology of the church and its ministry to the world. In this contribution to the *Armchair Theologians* series, Elizabeth Hinson-Hasty demonstrates how Days tireless work on behalf of the marginalized arose from and articulates a deeply theological commitment to the Reign of God and the dignity of all Gods children. This book is the perfect introduction to the Days remarkable life and powerful vision.
