

21st century university logistics management and logistics engineering planning materials: logistics system planning and design software applications(Chinese Edition)

Paperback. Pub Date: 2012 08 Pages: 308
Publisher: Tsinghua University Press.
Beijing Jiaotong University Press. colleges and universities logistics management and logistics engineering planning materials of the 21st century: the logistics system planning and design software applications combined with logistics system planning set of common problems and typical projects on the theme of each chapter. the book is divided into the logistics system overview. planning logistics system network planning. design. logistics node operating system design and enterprise logistics operators and system evaluation method of four parts. including logistics systems. logistics systems strategic planning and forecasting. logistics node location. delivery route planning and design. facilities planning and design methods. distribution center system planning and design. material handling and sort...
