

## Ford Muscle: Street, Stock, and Strip

Never before have the big-block Ford classics of the 60s and early 70s been documented with such spectacular photography. High-quality, full-car shots of the Mustang (including Cobra Jet, Boss family, Mach 1, Shelby and more), Falcon, Galaxie, Fairlane (including GT, Cobra, Thunderbolt and Torino), Comet (including GT, Spoiler II, Cyclone and more), and Cougar (including Eliminator, GT-E and XR-7) are featured in this impressive photographic history of Ford's high-powered classic vehicles. The book features a section on more modern muscle cars, with a focus on performance Mustangs, as well as a chapter with detailed coverage of Ford racing vehicles. In addition to over 200 stunning shots of the cars, interiors, and engines, the book also features promotional materials from the time of the cars' productions. Readers will also find an epilogue tracing the development of modern Ford muscle, including the latest Mustangs.
