

Endorfinas: La Droga de la Felicidad (Endorphins: The Drug of Happiness)

¿Sabias que tu organismo es capaz de segregar una droga cientos de veces mas fuerte que la heroína o la morfina? ¿Y que esta droga es totalmente natural y carece de efectos secundarios? ¿Sabias que la gente se droga para alcanzar, pagando un precio muy elevado, los mismos estados que podria conseguir gratuitamente gracias a las endorfinas? Las endorfinas, poderosos analgesicos bioquimicos segregados por el cerebro, constituyen uno de los descubrimientos cientificos mas importantes de la historia de la medicina. El masaje, los deportes, la musica y, sobre todo, hacer lo que nos viene en gana, hace que fabriquemos endorfinas. El correcto flujo de estas a traves de nuestro organismo nos hace sentir bien. Did you know that your body is capable of segregating a drug that is hundreds times more potent than heroin or morphine and that has no side effects? Endorphins, powerful biochemical analgesics segregated by the brain, are one of the most significant scientific discoveries in the history of medicine.
