

Euclid Earthmoving Equipment: 1924-1968 (A Photo Gallery)

Euclid Earthmoving Equipment, 1924 to 1968, examines the companys equipment origins, starting with the Euclid Crane & Hoist Company, and The Euclid Road Machinery Company, right on through the years General Motors controlled the company as Euclid Division. All of the companys major equipment product lines are covered, including rear-dump and bottom-dump haulers, scrapers, crawler dozers, wheel loaders, and blade-veyors. Also includes numerous military offerings, prototypes, and experimental designs, some of which have never been seen in publications before. Contains tables for machine introductions and production numbers. From the serious equipment historian, to the heavy equipment enthusiast, Euclid is packed with tons of the green-iron for your enjoyment.
