

## Those Eyes

Ronnie Jones is a typical teenage kid in love, with one exception: He knows for certain that Helen is THE ONE. The eyes dont lie. This a tale of love lost and found and lost and found. This is a tale of romance and a tale of fatherhood. This is a tale of car accidents and moose tramlings and frogs. This is a tale that will break your heart and mend it again. This is a tale of just how complex love can be.
