

Ford Mustang: 20 inspirational cars, Volume 1

Fantastic ideas for your Ford Mustang. The history of the Mustang has been written time and again, but it's the stories behind the personal projects, restorations and builds that get enthusiasts excited. This ebook presents twenty Mustangs from 1965 to 2011, all with compelling histories. There's an inspirational mix of authentic classics, race cars and modified street machines, all of which will provide you with ideas for your own projects. Each story comes with professionally shot colour photographs and vehicle specifications. You'll read stories of despair and hardship as owners realise the extent of work required to turn a rusted shell into a show-stopper; you'll revel in the grand dreams, designs and plans hatched to build a car true to the owners' desires; and you'll share in their joy as their cars achieve the pinnacle of concours condition (many of them are multiple show winners), race success, or just become an outstanding example of automotive history reborn. This book is invaluable for anyone thinking of owning, restoring, renovating, modifying or just simply lusting after a Ford Mustang, whether it's a Shelby GT500KR or a more modest example.
