

From Soul to Self

From Soul to Self takes the reader on a fascinating journey through philosophy, theology, religious studies, and physiological sciences. Each of the essays, drawn from a number of different fields, focuses on the idea of the soul and of our sense of ourselves. A stellar line-up of authors explore the relationship between a variety of ideas that have arisen in philosophy, religion and science, each idea seeking to explain why we think that we as individuals are somehow distinct and unique.
