

MCQs in Pharmacy Practice

This is a revision aid covering topics commonly featured in pharmacy undergraduate, registration and licensing multiple choice examinations. These topics include: general pharmacy practice interventions; pharmaceutical care; simple pharmaceutical calculations; doses and strengths; nomenclature and abbreviations; dosage forms; specialities; trade and generic names; biochemical tests; classification; side-effects; and common diseases. The book consists of 600 practice-oriented questions and includes both open- and closed-book sections. Answers with brief explanations are given at the end of each test.
