

Enlightenment: Plain & Simple Instructions to Awaken Now!

Are YOU ready to experience spiritual awakening, NOW? Enlightenment (Plain and Simple Instructions to Awaken Now!) by Chris Green is about bringing the moment of revelation to you in moments rather than spending x amount of years wandering the spiritual path. Greens message is simple, if you are ready, your time is now! What Green discovered through personal experience, study and via his meditation students is that enlightenment is actually a ridiculously easy re-connection to what is already enlightened within us. The process is similar perhaps to re-connecting an electricity supply following a minor fault with a fuse. It is widely accepted awakening is inexplicably random and IT generally occurs only after many years of devotion to this or that spiritual path but the truth of enlightenment according to Green could actually lie in the blatantly obvious pearls of information every seeker tosses aside because it appears too simple or even paradoxical. If this is true then your exhausting seeking has reached journeys end! The life of a spiritual master is often a fruitless and forlorn one filled with eager-beaver seekers looking for the deeper meaning in everything, looking for glimpses of profound insight where there isnt any, looking for spiritual truths where none exist. Alas they just cannot see that its easier to become enlightened than it is to eat a bowl of cornflakes! Chris Green.

Publishers Note: This new and exciting book caused a stir in our publishing office when our manuscript assessor read it and woke up. Although there is no guarantee Chris also offers insightful instructions on how to cease psychological suffering that is not interdependent upon the reader awakening. A win/win scenario if ever there was one!
