

The Complete Euripides: Volume V: Medea and Other Plays (Greek Tragedy in New Translations)

Based on the conviction that only translators who write poetry themselves can properly re-create the celebrated and timeless tragedies of Aeschylus, Sophocles, and Euripides, the Greek Tragedy in New Translations series offers new translations that go beyond the literal meaning of the Greek in order to evoke the poetry of the originals. This volume collects Euripides' *Alcestis* (translated by William Arrowsmith), a subtle drama about Alcestis and her husband Admetos, which is the oldest surviving work by the dramatist; *Medea* (Michael Collier and Georgia Machemer), a moving vengeance story and an excellent example of the prominence and complexity that Euripides gave to female characters; *Helen* (Peter Burian), a genre-breaking play based on the myth of Helen in Egypt; and *Cyclops* (Heather McHugh and David Konstan), a highly lyrical drama based on a celebrated episode from the *Odyssey*. This volume retains the informative introductions and explanatory notes of the original editions and adds a single combined glossary and Greek line numbers.
