

Haiku for the Single Girl

I feel its approach, Inevitable as death: Internet dating. Unsolicited relationship advice from relatives, disastrous dates, men who wear thumb rings, and the moments of deep satisfaction when a single girl realizes that (unlike her smug married friends) she can do whatever she wants with her time - its all here in this brilliantly incisive and witty collection of haikus. Every woman - whether single or not - will laugh until she cries, and then start laughing all over again.
