

Do Our Citizenship Requirements Impede the Protection of Political Asylum Seekers?: A Comparative Analysis of European Practices

In contrast to the 1951 Geneva Conventions purposes, not all the post-1990 national asylum determination systems are devised to help refugees, or merely to test the truths of asylum claims, but also in order to determine asylum seekers legitimacy as potential citizens. This book focuses on the conceptual and empirical links between citizenship and asylum and seeks to discover legal and institutional tools for detaching asylum from citizenship.
