The twentieth century has witnessed an astonishing number (386 at latest count) reported Apparitions of Our Blessed Mother. These apparitions have been reported on every continent on our globe. The seers, men, women, and children, have been people from many walks of life. A spiritual outpouring of this kind has never before occurred in the nearly 2,000 years of the Christian religion. The vast majority of these claimed apparitions have yet to be investigated and approved or condemned by the Roman Catholic Church. Nora Arthurs spoke directly to an audience the words coming from Heaven. A tape machine recorded the messages as she spoke. The message was then typed and distributed throughout the United Kingdom, Europe, and North America. These two volumes contain approximately 580 messages that have survived over the years. They are printed as originally typed and distributed, other than for some modifications due to unorthodox grammar. The paragraph divisions and voice identifications should be regarded as suggestive only, not definitive. Mrs Arthurs messages are striking for their emotional impact and appear to be even more relevant today than when they were first communicated. The messages are even of a quality suitable for devotional literature, especially where a number are
