

## St. Augustines Dilemma (Studies in Church History)

St. Augustines Dilemma: Grace and Eternal Law in the Major Works of Augustine of Hippo traces the major themes of St. Augustines thought through his major works, and especially focuses on the growing conflict between Augustines understanding of Grace which grows out of his study of St. Pauls writings. As early as 396-7, Augustine is already wrestling with the problem, and this work shows that it has a major effect on his understanding of the means of salvation. Creswell traces the growing struggle through five periods of Augustines life, and documents a growing dependence upon grace.
