

## Build a Survival Safe Home: 30 Amazing Lessons on How to Build Survival Safe Home and Save Yourself from Natural Disasters (Survival Safe Home, survival safe house, survival safe house books)

We all know that nothing lasts forever. This also includes our current economy and modern life. A time may come in the future where we don't have electricity or the other conveniences of life. It's important that you have a plan for that or a natural disaster. What would you do and where would you go if your current home was demolished due to a natural disaster? In this informative ebook, we discuss some of the best survival safe home plans that can help you survive when SHTF for any reason. Many of the ideas require little more than your sweat and some eco-friendly materials. You'll learn: How to build a home out of plastic bottles that is almost bullet proof; How to make your own cement so that you can make bricks; How to build a home out of cordwood; How to collect rain water; And other important tips. You'll also learn how to build immediate shelters that can get you out of the elements and keep you safe. Additionally, we will discuss some of the things that you need to know about protecting your new homestead. But we didn't stop there. We will also tell you how to make your own solar panel and how to make a smoker for your food.
