

Fifty shades of an Italian mother in law

Have you ever met an Italian Mother in Law (following MiL)? Some Italian MiL are very similar: they are often intrusive. The protagonist of this book is really a character! It would be difficult to find someone like her, but you never know: here the reason for this semiserious book. If you are a female wishing to marry an Italian man, read this book, it could be helpful. If the name of the book suggested you to give it to your MiL, there are three possible scenarios that you have to consider: 1)Shell read the book, recognize her deficiencies and will ask you to forget and to accept her like a new mum (unlikely); 2)Shell read the book and between the lines, shell figure out that she is the MiL, so will feel like killing you, but being such an action too drastic shell probably choose to burn the book in your own house, like a warning. Dont panic, she surely is my Italian MiL, could not be any other. Maybe, is better to delete this item; 3)Shell read the book and smile. Wonderful, she is one of those MiL that will become your friend and maybe the book will help you to discover yours connections. If she is Italian, she is the best Italian MiL youll ever meet. Youre a lucky girl! To summarize, if you are sure that your MiL is not like mine, well, give her the book otherwise.good luck!
