

In Love with Death

Death is the inevitable fate of every single person on earth. How do we accept the inevitability of our own death? How do we live our lives with meaning? Will money lead us to happiness? Satish Modi examines these questions and more in a moving, powerful, thought-provoking work based on his own reflections as well as the experiences of people from all walks of life. The result is a fascinating book that teaches us that whoever we are and whatever our aspirations in this life, it is important for each and every one of us to accept our own passing. In doing so, we free ourselves to live as fully as possible, guided by the principles of goodness, love, and compassion.
