

The Internet Church

With rapid technological advances and the increasing impact of the internet, the world is literally at our fingertips. Yet many churches have yet to discover how to tap into this powerful resource. The Internet Church shows church leaders how to start from square one in creating an interactive website that can greatly expand the ministry potential of a church. Walter Wilson, an internet expert and committed Christian, describes how technology can enhance evangelism outreach, and challenges leaders to take advantage of unprecedented opportunities in the new digital age.
