

Invitations to Happiness

Zen is a word that has a lot of different definitions. It can even mean different things to individuals, depending on the circumstances and context. Having practiced Zen for some time, I've come to know it in a very simple way. Zen simply means Unification, physically, mentally, emotionally and spiritually, in This present moment. When we're really deeply and mindfully connected with our present moment in a caring way, we tend to feel happiness. Invitations to Happiness for that context is a Zen book, focused on our opportunity to show up in the present moment. The experiences, photography, and calligraphy that I've presented here are opportunities, openings and invitations to experience the reality that this is the best life that we've ever going to have. It's my deep hope that you're able to relate and use these openings, to expand the loving-kindness and happiness that lives within you. ~May Your Life Go Well!
