

The Master Key System (Unabridged Ed. Includes All 28 Parts) by Charles Haanel

Discover for yourself within those pages the same secrets of wealth creation and personal improvement that are believed to have inspired Bill Gates to drop out of university and establish his financial empire. You are looking at a manual for your own success that has proven the test of time for close to a hundred years. So powerful are the teachings within this book that it mysteriously disappeared after it sold more than 200,000 copies. With its reemergence, it inspired another phenomena - The Secret. Somebody out there really didn't think people like you and me should be equipped with the power to achieve our full purpose and potential, but they failed. C?mon, it is time you too started Keying and unleashing the power of the Law of Attraction into your life. Manifest your own dreams day after day with the proven principles of success outlined in the 28 lessons that form the Master Key System, because you know it is time to stop reacting and time to shape your own reality. The same gurus who are willing to charge you thousands of dollars for putting these secrets into their own words consider this work to be one of the finest programs in self-improvement, for the depth of its coverage. Save your money and learn from the master himself. It was written to be easy to follow, simple to understand, and readily applicable in every situation, so that you are both feeling and thinking good. Start your journey of self-mastery on the right foot by getting this edition. Someone thought we were crazy to publish another copy of the Master Key. We thought you should know why he changed his mind when he got his hands on this edition. Anyone who just wants to scan the book can find a copy of it online, but it is filled with typos and missing four vital chapters. All the other printed editions we bought fared no better and tried to compete on who could sell you this gem the cheapest, without regard to quality or

completeness. You deserve the best edition possible for your money, one that is easy to use while studying, complete, accurate and beautifully designed. We've produced a copy that you'll be proud to share with your friends as a gift, a copy that someone on their way to true success would own.
