

What You Didn't Expect When You Got Knocked Up

From the title alone it is evident What You Didn't Expect When You Got Knocked Up isn't your typical pregnancy handbook. But if you are intrigued enough (and you should be) to read on, you'll find this book to be a bracing and hilarious look at the real issues of pregnancy. You'll find no lofty language, spiritual guidance or cloying reassurances. Just an honest, often brutally so, look at what real moms and dads go through in their quest to reproduce. The brainchild of stand-up comic, writer and father Julian Kross, this book explores in hilarious, blunt and slightly offensive fashion the trials of pregnancy for both sexes. Kross attacks each topic with his trademark wit and intense humor. No punches are pulled as he assaults the opinions of every expert, doctor and friend that has ever given you advice about your pregnancy. What You Didn't Expect When You Got Knocked Up is the pregnancy guide that is never reassuring, seldom informative, always rude, and completely and totally honest about what mothers- and fathers-to-be have gotten themselves into. If nothing else, it'll make you laugh your ass off all the way to the delivery room.
