

La Voragine [The Vortex]

Una de las grandes novelas americanas. La terrorífica magnitud de la selva amazónica es el telón de fondo de la única novela del gran poeta y escritor colombiano José Eustasio Rivera, *La voragine*. Los personajes son tragados literalmente por la selva, pero ese retrato que hizo Rivera de esa naturaleza salvaje e indomable y de sus personajes, Arturo Cova que busca escapar de sus deberes sociales y de su amada Alicia, una mujer caprichosa, ya es parte de las más brillantes creaciones de la literatura americana. Es además novela de crítica en especial a los explotadores de las grandes caucheras de la región, y por el lenguaje brillante en que está escrita, esta obra ha sido catalogada como una de las grandes novelas americanas. The terrifying magnitude of the forest is the backdrop of a novel that is justly considered one of the greatest products of Latin-American literature. The characters are swallowed by the jungle, but the picture of wild and indomitable nature is in the center of a fascinating book.
