

Living Contemplation

A still mind sees more clearly. Living Contemplation is a collection of forty one short pieces of writing that have emerged from such stillness. They reflect on the encounter of contemplative awareness with daily life in the world. Written over a period of ten years, the writings cover a wide range of topics, including prayer, inner peace, the nature of love, Christian theology, the mystery of existence, death and dying. Each piece of writing is complete in itself. The book may therefore be read in any order. But the discerning reader will detect certain recurring themes. Living Contemplation is a companion volume to From the Bottom of the Pond by the same author. Simon Small is a priest in the Church of England. He is chaplain to Abbey House retreat center in Glastonbury, where he lives a withdrawn, contemplative way of life.
