

# MIND THE GAP: GURDJIEFFIAN INSTITUTES with Ouspensky, Roles, Nicoll, Fenwick

The book develops upon an appreciation of two of Gurdjieff's key spiritual techniques: self-remembering and transition. The anomalous I suggest was real for Gurdjieff, and which appears to have persisted beyond his lifetime, is the mind altering vibration he is reported to have employed. This vibration appears to have a unique resonance, because seemingly it aligns individuals who are self-remembering to his consciousness somehow. The spiritual technique transition is then the key to transferring perceived living entities to another destination, without a corruption of the spiritual faculty advocated.
