

Womens Fiction from Latin America: Selections from Twelve Contemporary Authors (Latin American Literature and Culture)

Evelyn Picon Garfield has chosen selections from the prose works of twelve female authors representing seven Latin American countries to create a collection which speaks to a variety of issues and exhibits a pastiche of richly varied artistic styles. Containing short stories, a one-act play, and excerpts from novels, the volume touches on such topics as political commitment and persecution, regional ethnicity of African and Indian cultures, social issues between classes and races, misogyny, the complexities of the human psyche, and female solidarity. Garfield includes works from the six authors she interviewed for her *Womens Voices from Latin America*, and has added selections from six other writers including Isabel Allende and Clarice Lispector.
