

Magnolia Wednesdays

From the USA Today bestselling author of *While We Were Watching Downton Abbey* comes a wonderfully entertaining book about what to do when life comes at you full swing. At forty-one, Vivian Armstrong Gray's life as an investigative journalist is crumbling. Humiliated after taking a bullet in her backside during an expose, Vivi learns that she's pregnant, jobless, and very hormonal. This explains why she says yes to a dreadful job covering suburban living back home in Georgia, a column she must write incognito. Down South, it's her sister's ballroom dance studio that becomes her undercover spot where she learns about the local life—and where unexpected friendships develop. As she digs up her long buried roots, she starts to wonder if life inside the picket fence is really so bad after all. Read Wendy Wax's post on the Penguin Blog.
