

Why U Do the Things U Do

Take a look inside yourself! There is a psychological term called motivation which is the study of why you do the things you do. What do we do when psychology has reached its limit and the problem we seek relief for continues to exist? Can it be that the majority of the problems that affect the soul have to be dealt with from a spiritual standpoint? When we act up, or respond to situations in a way that later causes us to be embarrassed, ashamed, or feel guilty, the root cause could be damaged emotions or a wounded spirit. You may be doing things you don't want to do, but you do not know how to change your behavior. In this book, you will not only find tools to help you discover why you do the things you do, but also learn strategies that will help you to make changes that will result in your becoming a better person.
