

Get Love: How to Transform Your Love Life

In *Get Love: How to Transform Your Love Life*, a true and singular love story unfolds in front of readers eyes in the form of one love letter after another. Simultaneously, the book is a step-by-step guide to understanding the mysteries of the subconscious mind. The subconscious mind is the place where all the reasons and resistances to the love we want are stored. In Part I of *Get Love*, readers follow two lovers blossoming intimacy letter by letter, learning how they risk their hearts to make their relationship work. This is a love story stripped naked and vulnerable. In reading their poignant correspondence, readers learn about themselves. Part II is a one-on-one, self-help session that shows readers how to work in partnership with their subconscious minds, just as the lovers from Part I learn to do, in order to attain the love they want and deserve. This section teaches readers how to create more than growth and in fact teaches them how to change, because growth prepares us to change; it is not the change. Not only does this book reveal the mysteries of change, it walks you through those mysteries and gives solid, practical answers on what to do so you can be free to create the love youve always wanted.
